

PORT OF KIEL

## WE WANT YOU: SYSTEM ADMINISTRATOR

### YOUR TASKS

As a system administrator, you are responsible for the administration and maintenance of our IT systems. Troubleshooting, error analysis and error correction are also part of your job.

You are our hero in first and second level support and never let our employees down with your extensive expertise. As an expert, you master the business, client and server applications effortlessly and support our teams in getting the best out of the technology.

### YOU HAVE

You have completed training as an IT specialist or have a comparable qualification with an IT background. You have professional experience in system administration and in dealing with heterogeneous IT landscapes. An independent, structured and solution-orientated way of working is a standard for you. When working in a team, you excel with good communication skills.

### WE OFFER

You can expect an exciting and varied job in a permanent position with a direct view of the Kiel Fjord. You can look forward to a broad range of tasks and the opportunity to support our IT department with a great deal of personal responsibility. Whether it's the necessary further training measures, Corporate Health Management with various offers, employee discounts or company fitness with Hansefit - a wide range of employee benefits await you!

### CONTACT

If we have sparked your interest, we look forward to receiving your application in PDF format with details of your earliest possible starting date and your salary expectations.
